

How BEC Scams are Costing Enterprises Billions of Dollars

Presented by

Business Email Compromise (BEC) attacks are advanced phishing threats where **the criminal mimics a genuine business email account** to deceive a victim into believing the senders legitimacy and transferring money or data to the criminal.

In 2023, the FBI reported¹:

21,839
Complaints of
BEC schemes

Costing
\$2.7 BIL

Avg.
\$125,611
PER INCIDENT

Unfortunately, BEC attacks are **expected to not only grow drastically, but evolve** to further reduce detection and increase profit potential. Osterman Research reports that²:

LAST 12 MONTHS

Over **93%** of organizations experienced one or more BEC attack variants in the previous 12 months

NEXT 12 MONTHS

Large organizations anticipate a **43.3%** increase in the threat created by BEC attacks in the next 12 months

TOP BEC ATTACK VARIANTS

During the previous 12 months, these were the top BEC variants.

Fake Invoices
20%

Data Theft
19%

Account Take Over
18%

ATTACK CHANNELS

While email remains a key vehicle for launching BEC attacks, report respondents indicate that cyber criminals are also utilizing other channels for their BEC campaigns.

Spear Phishing
Emails
40%

SMS
Messages
36%

Social Media
Requests
25%

KEY TARGETS

FINANCE

**C-LEVEL
EXECUTIVE**

IT PROFESSIONAL

CONFIDENCE

Confidence levels for **none of the groupings of executives or employees is more than 50%**, and for the “typical employees” group, confidence in detection is **only 35% on average**
